Disclaimer

This presentation contains forward-looking statements that reflect Technip Energies' (the "Company") intentions, beliefs or current expectations and projections about the Company's future results of operations, anticipated revenues, earnings, cashflows, financial condition, liquidity, performance, prospects, anticipated growth, strategies and opportunities and the markets in which the Company operates. Forward-looking statements are often identified by the words "believe", "expect", "anticipate", "plan", "intend", "foresee", "should", "would", "could", "may", "estimate", "outlook", and similar expressions, including the negative thereof. The absence of these words, however, does not mean that the statements are not forward-looking. These forward-looking statements are based on the Company's current expectations, beliefs and assumptions concerning future developments and business conditions and their potential effect on the Company. While the Company believes that these forward-looking statements are reasonable as and

when made, there can be no assurance that future developments affecting the Company will be those that the Company anticipates.

All of the Company's forward-looking statements involve risks and uncertainties, some of which are significant or beyond the Company's control, and assumptions that could cause actual results to differ materially from the Company's historical experience and the Company's present expectations or projections. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those set forth in the forward-looking statements.

For information regarding known material factors that could cause actual results to differ from projected results, please see the Company's risk factors set forth in the Company's 2025 Annual Financial Report filed on March 10, 2026, with the Dutch Autoriteit Financiële Markten (AFM) and the

French Autorité des Marchés Financiers (AMF), which includes a discussion of factors that could affect the Company's future performance and the markets in which the Company operates.

Forward-looking statements involve inherent risks and uncertainties and speak only as of the date they are made. The Company undertakes no duty to and will not necessarily update any of the forward-looking statements in light of new information or future events, except to the extent required by applicable law.

Financial information is presented under adjusted IFRS.

¹ Effective tax rate has increased, primarily reflecting unfavorable earnings mix, including negative taxable results in lower-tax jurisdictions for which deferred tax assets could not be fully recognized.

² Corporate costs include the impact of "ESOP 2026", the Company's Employee Share Offering, announced on April 13, 2026. The expected cost (non-cash) associated with ESOP 2026 is ~€16m.

³ As part of its capital allocation framework for long-term value creation, the Company may invest in adjacent business models including Build Own Operate (BOO) and co-development. Since Q3 2024, these investment costs are recorded as non-recurring items.

Our through-cycle ambition for a leading TSR beyond 2028
